

THENMOZHI M

Junior Software Engineer

RESUME OBJECTIVE

Work smart. Enthusiastically learn and implement new technologies. Be valuable and loyal to an employer

EXPERIENCE

Employer : Ecrubit Consultancy Service

My Position: Junior Software Engineer

Duration : June 2021 – August 2021

Project : Giceb Learning Website Design & Development

Developed front-end web pages using React, Redux, Redux-saga, JavaScript, HTML, CSS and Bootstrap. Worked on many screens like (Home, Course listing, Practice, Meet-Experts, Review etc..) along with navigation and routing.

Employer : Novac Technology Solutions

My Position: Associate Test Engineer Trainee

Duration : September 2019 – September 2020

Project : Motor Loan Finance Product

Created and Executed around 1000 test scenarios and test cases. Identified more than 100 defects in the testing projects.

Self-Projects Done

- Restaurant Menu Card - HTML Used (During college days)
- Tourist Application to display the different places and its locations using React, Redux & Redux-saga (in recent days)
- Basic Student app. This app will allow us to create student, show students list, update student and delete a student by using MERN stack.
